RESIDENTIAL DEVELOPMENT
UITIKON – ZH

N° 12062E

Principal

Kumaro Alpha AG
Walzmühlestrasse 48
8501 Frauenfeld

Project development

HRS Real Estate AG
Walzmühlestrasse 48
8501 Frauenfeld

Total contractor

HRS Real Estate AG
Siewerdstrasse 8
8050 Zurich

Architect

Züst Gübeli Gambetti
Architektur und Städtebau AG
Limmatstrasse 65
8005 Zurich

Civil engineer

Urech Bärtschi Maurer AG
Röschbachstrasse 22
8037 Zurich

Technical offices

Construction physics:
Kopitsis Bauphysik AG
Zentralstrasse 52 A
5610 Wohlen

HVAC engineers:

Huustechnik Rechberger AG
Leutschenbachstrasse 45
8050 Zurich

Electrical engineers:

HKG Engineering AG
Im Langacker 20
5405 Dättwil

Landscape planners:

ASP Landschaftsarchitekten AG
Tobeleggweg 19
8049 Zurich

Construction project location

Schlierenstrasse 31-41
Gläserenstrasse 12-20
8142 Uitikon

Planning

2012 – 2014

Implementation

2013 – 2015

LOCATION/HISTORY

The municipality of Uitikon (ZH) is situated in a large forest clearing on the northern lower slopes of the Albis mountain chain. The south-west facing hill and its close proximity to Zurich make Uitikon a popular residential and leisure area. The quick access to the A4 highway also contributes to the town's attractiveness. The Sunshine

residential development stretches along a formerly un-built strip of land along the old road to the Schlieren suburb. It completes a neighbourhood that has grown up over the last decade north of the historical, well-preserved village centre, and offers a beautiful view of the unspoiled forested hills and the Alps.

CENTRE D'INFORMATION
ARCHITECTURE ET CONSTRUCTION

CONCEPT / ARCHITECTURE

The complex consists of eleven freestanding four-storey residential buildings with flat roofs and rooftop areas. They are placed in two offset rows and are linked by two underground parking garages. The buildings have a solid masonry/concrete shell and plastered external insulation. Depending on their position on-site, they have different polygonal structures. Thanks to the bends and edges, the buildings fit in to their surroundings and each has its own identity.

The architects developed four designs for the 76 condominiums. The buildings along the Schlierenstrasse have two 3-bedroom apartments per floor. These are characterised by flowing communal areas, including a loggia. On the rooftop floor, generously-proportioned 3 and 4-bedroom apartments and their terraces stretch across the whole space. On the basement floor, which rises above ground on the valley side, there is room for small 1 and 2-bedroom apartments in the left corner of the buildings. On this level, the staircases lead directly to the park-like semi-public surroundings of the complex.

In the lower row of houses, two triple aspect 2-bedroom apartments flank a 1-bedroom apartment, which looks out over the no-build zone. They also have linked living and dining

areas with spacious loggias. The lateral apartments on the ground floor are 4-bedroom duplexes: internal staircases lead down to the basement level, offering direct access to the private garden immediately bordering the downhill no-build zone. The façade plasterwork has a coarser grain on the base and is painted a slightly darker grey than on the upper floors. Along with the large, framed window areas and the glass balustrades, the overall appearance is elegant and restrained.

SPECIAL FEATURES

The complex is Minergie-certified (certificate ZH6497-ZH6507). The compact building structures contribute greatly to energy efficiency; thanks to the good storage capability of the concrete roofs, the complex can make optimal use of heat gains in the colder months. The energy concept includes comfort ventilation that can be individually controlled for each apartment with one heat pump per building and geothermal probes.

PROJECT DATA

Total cost:	approx. CHF 65 million
Site area:	13 240 m ²
Floor area:	18 960 m ²
Main usable area	
Enclosed space:	60 730 m ³
Floors:	4
Total apartments:	76
1-bedroom apartments:	16
1-bedroom rooftop apartments:	2
2-bedroom apartments:	10
2-bedroom rooftop apartments:	8
3-bedroom apartments:	24
3-bedroom rooftop apartments:	2
4-bedroom apartments:	10
4-bedroom rooftop apartments:	4
Parking spaces	
Underground	
Cars:	153
Motorcycles:	14
